

IMPROVING ENVIRONMENTS WITHOUT RISKING CASHFLOW

INVEST IN YOUR ENVIRONMENT

Any investment you make is of course an important decision and part of that decision is budget and payment method. We work closely with Focus Finance who help our clients to arrange bespoke finance solutions specific to their individual needs.

The process is really easy and can be completed from start to finish in just a few days.

1 **Get in touch with Focus** in any way that suits you to discuss your requirements and preferences with one of our experts

2 Receive a **bespoke finance proposal** to review and accept

3 On acceptance review and sign the **finance agreement** and payment will then be made in line with Synus' payment requirements.

- Available to all limited companies
- Terms from 1 to 5 years with no deposit
- Hire purchase and lease options

✓ Protect cashflow

Your whole project can be completed without the need for any capital expenditure. The cash can then be used where it will give the best return such as investment, operational expenditure or short term cashflow needs.

✓ Additional funding

Keep existing banking facilities, and credit lines free for more appropriate uses. Our facilities cannot be withdrawn like overdrafts.

✓ Better tax planning

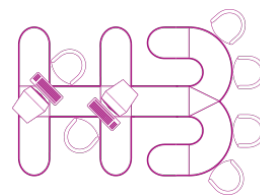

By utilising the right type of finance for your equipment acquisition you can maximise or accelerate your tax relief.

✓ Make an impression

You could make your new space functional, or it could be really special, wowing clients and staff alike! The difference is a no brainer when broken down to a monthly payment!

✓ Quick painless process

Finally, with asset finance provided by Focus you can expect very quick responses and a minimal amount of paperwork.
